

Journal of Clinical Lipidology

VOLUME 16, NUMBER 5, September/October 2022

Official Journal of the National Lipid Association

TABLE OF CONTENTS

Foreword

From the editor: Lipidology resurgent as the pandemic wanes 545
John R. Guyton

News from the NLA 546

Reviews

Effectiveness of medical nutrition therapy in the management of adult dyslipidemia: A systematic review and meta-analysis 547
Alex E. Mohr, Cherine Hatem, Geeta Sikand, Mary Rozga, Lisa Moloney, Joanne Sullivan, Desiree De Waal, Deepa Handu

Reduction of cardiovascular events with the use of lipid-lowering medication in patients with familial hypercholesterolemia or severe primary hypercholesterolemia: A systematic review 562
Walter Masson, Pablo Corral, Leandro Barbagelata, Augusto Lavallo-Cobo, Juan P Nogueira, Daniel Siniawski, Kausik K Ray

Small interfering ribonucleic acid for cholesterol lowering – Inclisiran 574
Daniel Soffer, Robert Stoekenbroek, Roda Plakogiannis

Case Studies

Partial lipodystrophy, severe dyslipidaemia and insulin resistant diabetes as early signs of Werner syndrome 583
Isis Atallah, Dominique McCormick, Jean-Marc Good, Mohammed Barigou, Montserrat Fraga, Christine Sempoux, Andrea Superti-Furga, Robert K. Semple, Christel Tran

Familial chylomicronemia syndrome. A sixty year follow-up in two siblings and their kindreds. Nosological and clinical considerations 591
Giovanni B. Vigna, Nadia Citroni, Patrizia Tarugi, Renato Fellin

Familial hypobetalipoproteinemia caused by homozygous loss-of-function mutations in *PCSK9*: A case report 596
Takanori Kudo, Kei Sasaki, Hayato Tada

Novel *APOB* nonsense variant related to familial hypobetalipoproteinemia and hepatic steatosis: A case report and review 601
Pablo Rodríguez de Vera-Gómez, Pilar del Pino-Bellido, Juan Jesús García-González, Flora Sánchez-Jiménez, Rosario Oliva-Rodríguez, Teresa Arrobas-Velilla, María Asunción Martínez-Brocca

Original Articles

Under-reporting and under-representation of non-Hispanic Black subjects in lipid-lowering atherosclerotic cardiovascular disease outcomes trials: A systematic review 608

Jelani K. Grant, Michael Dangl, Margaret Koester, Mickias Tegegn, Leonardo Knijnik, Harjit Singh, Carl E. Orringer

Effect of olezarsen targeting APOC-III on lipoprotein size and particle number measured by NMR in patients with hypertriglyceridemia 617

Ewa Karwatowska-Prokopczuk, Jean-Claude Tardif, Daniel Gaudet, Christie M. Ballantyne, Michael D. Shapiro, Patrick M. Moriarty, Seth J. Baum, Eric St Amour, Veronica J. Alexander, Shuting Xia, James D. Otvos, Joseph L. Witztum, Sotirios Tsimikas

GPIHBP1 autoantibody is an independent risk factor for the recurrence of hypertriglyceridemia-induced acute pancreatitis 626

Guofu Zhang, Qi Yang, Wenjian Mao, Yuepeng Hu, Na Pu, Hongbin Deng, Xianqiang Yu, Jingzhu Zhang, Jing Zhou, Bo Ye, Gang Li, Baiqiang Li, Lu Ke, Zhihui Tong, Masami Murakami, Takao Kimura, Katsuyuki Nakajima, Wangsen Cao, Yuxiu Liu, Weiqin Li

Impact of a virtual lipid clinic on lipid-lowering therapy, LDL cholesterol levels, and outcomes in patients with acute coronary syndrome 635

Rafael Vázquez García, Juan Enrique Puche García, William Delgado Navas, Diego Mialdea Salmerón, Daniel Bartolomé Mateos

Impact of the COVID-19 pandemic on cardiometabolic health parameters in children with preexisting dyslipidemia 643

Juliette Schefelker, Xiao Zhang, Ann Dodge, Kristen Marten, Greigory Dimailig, Heather L. Bartlett, Amy L. Peterson

Associations of HDL subclasses and lipid content with complement proteins over the menopause transition: The SWAN HDL ancillary study 649

Samar R. El Khoudary, Xirun Chen, Dan McConnell, Maria M. Brooks, Jeff Billheimer, Trevor J. Orchard

Circulating de novo lipogenesis fatty acids and all-cause mortality in a prospective Dutch population cohort 658

Yinjie Zhu, Fabian A. Vogelpohl, M. Rebecca Heiner-Fokkema, Ilse G. Pranger, Isidor Minović, Gerjan J. Navis, Stephan J.L. Bakker, Ineke J. Riphagen

Cost-effectiveness of population-wide genomic screening for familial hypercholesterolemia in the United States 667

Scott J. Spencer, Laney K. Jones, Gregory F. Guzauskas, Jing Hao, Marc S. Williams, Josh F. Peterson, David L. Veenstra

Cognitive function with evolocumab in pediatric heterozygous familial hypercholesterolemia 676

Daniel Gaudet, Andrea Ruzza, Ian Bridges, Paul Maruff, Adrian Schembri, DPsych, Andrew Hamer, François Mach, Jean Bergeron, Isabelle Gaudet, DPsy, Julie St Pierre, John J.P. Kastelein, G. Kees Hovingh, Albert Wiegman, Frederick J. Raal, Raul D. Santos, for the HAUSER-RCT Investigators

High lipoprotein(a) levels predict severity of coronary artery disease in patients hospitalized for acute myocardial infarction. Data from the French RICO survey 685

Michel Farnier, Frédéric Chagué, Maud Maza, Florence Bichat, David Masson, Yves Cottin, Marianne Zeller

Plasma HDL pattern, cholesterol efflux and cholesterol loading capacity of serum in carriers of a novel missense variant (Gly176Trp) of endothelial lipase 694

Livia Pisciotta, Alice Ossoli, Annalisa Ronca, Anna Garuti, Raffaele Fresca, Elda Favari, Laura Calabresi, Sebastiano Calandra, Stefano Bertolini

Efficacy and safety of self-emulsifying formulation of highly purified eicosapentaenoic acid ethyl ester (MND-2119) versus highly purified eicosapentaenoic acid ethyl ester in patients with hypertriglyceridemia: Results from a 12-week randomized, double-blind, active-controlled, phase 3 study 704
Takuya Mori, Kagari Murasaki, Koichi Hayashi, Yuichi Yokoyama

Coronary computed tomography angiography evaluation of plaque morphology and its relationship to HDL and total cholesterol to HDL ratio 715
Venkat S. Manubolu, Dhiran Verghese, Suvasini Lakshmanan, Luay Alalawi, April Kinninger, Jairo A. Bitar, Francesca Calicchio, Khadije Ahmad, Ahmed Ghanem, Denise A. Javier, Czarina Mangaoang, Ferdinand Flores, Christopher Dailing, Sion K. Roy, Matthew J. Budoff

Impact of small dense low-density lipoprotein cholesterol and triglyceride-rich lipoproteins on plaque rupture with ST-segment elevation myocardial infarction 725
Taito Arai, Teruo Sekimoto, Shinji Koba, Hiroyoshi Mori, Naoki Matsukawa, Rikuo Sakai, Yuya Yokota, Shunya Sato, Hideaki Tanaka, Ryota Masaki, Yosuke Oishi, Kunihiro Ogura, Ken Arai, Kosuke Nomura, Koshiro Sakai, Hiroaki Tsujita, Seita Kondo, Shigeto Tsukamoto, Hiroshi Suzuki, Toshiro Shinke

Brief Communications

Predicting resilience in heterozygous familial hypercholesterolaemia: A cohort study of octogenarian patients 733
eopoldo Pérez de Isla, Rodrigo Alonso, Rosa Argüeso, Ovidio Muñoz-Grijalvo, Pilar Álvarez-Baños, Lina Badimón, Gerald F. Watts, Pedro Mata

Long-term safety and efficacy of MND-2119 (self-emulsifying formulation of highly purified eicosapentaenoic acid ethyl ester) in patients with hypertriglyceridemia: Results from a multicenter, 52-week, open-label study 737
Takuya Mori, Kagari Murasaki, Yuichi Yokoyama

Relation of red blood cell distribution width to risk of major adverse cardiovascular events, death, and effect of alirocumab after acute coronary syndromes 747
Patrick M. Moriarty, Philippe Gabriel Steg, Jennifer McGinniss, Andreas M. Zeiher, Harvey D. White, Garen Manvelian, Robert Pordy, Megan Loy, J. Wouter Jukema, Robert A. Harrington, Jessica V. Gray, Lauryn K. Gorby, Shaun G. Goodman, Rafael Diaz, Vera A. Bittner, Deepak L. Bhatt, Michael Szarek, Gregory G. Schwartz

Letter to the Editor

Monkeypox is a global public health emergency: The role of repurposing cholesterol lowering drugs not to be forgotten 757
Alpo Vuorio, Frederick Raal, Petri T. Kovanen

Corrigendum

Corrigendum to Use of Lipoprotein(a) in clinical practice: A biomarker whose time has come. A scientific statement from the National Lipid Association [Journal of Clinical Lipidology Volume 13, Issue 3, May-June 2019, Pages 374-392] 759
Don P. Wilson, Terry A. Jacobson, Peter H. Jones, Marlys L. Koschinsky, Catherine J. McNeal, Børge G. Nordestgaard, Carl E. Orringer

Use of Lipoprotein(a) in clinical practice: A biomarker whose time has come. A scientific statement from the National Lipid Association e77
Don P. Wilson, Terry A. Jacobson, Peter H. Jones, Marlys L. Koschinsky, Catherine J. McNeal, Børge G. Nordestgaard, Carl E. Orringer
